

2 November 2006

Aloha,

I write this testimonial on behalf of my friend and business associate, Warren Oda!!

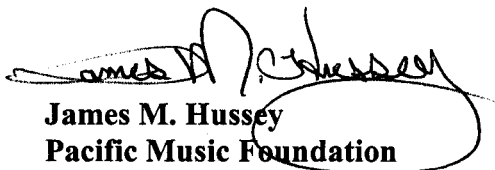

Having already commissioned Warren to design two business cards and establish two wonderful websites, it's very easy for Pacific Music Foundation to afford Warren our highest endorsement for service, advice and feedback well beyond requirements for outstanding work!!!!

The technical expertise he expertly displays and utilizes speaks loudly of his training, experience and timely application of relevant knowledge. Warren was recommended to our organization and it didn't take us long to realize he had earned his recommendation ----- and as a result, now is given our referral as well.

An adept business person himself, Warren recognizes the importance of timely service and responds very positively in this regard. We are very sure he would respond equally were he to receive your commission.

Most importantly, Warren is blessed with a very genial personality which comes across nicely. When this was combined with his technical mastery in a service package that proved its cost-effectiveness, our membership roared its approval.

Accordingly, we enthusiastically afford Warren our highest recommendation!!!
